CONTENTS

Vol. 149, No. 1, May 1986

The size and number of Langerhans islets correlated with their endocrine function: A morphometry on immunostained serial sections of adult human pancreases. *T. Kaihoh, T. Masuda, N. Sasano and T. Takahashi* 1

Establishment of passive hemagglutination assay (PHA) system for anti-HBc in plasma. *Y. Uemura, K. Fukuyama, M. Nishida, T. Suyama and H. Ohori* 11

Serum cortisol levels in pregnancy induced hypertension patients. *N. Furuhashi, H. Kono, M. Hiruta, T. Takahashi, M. Tanaka, T. Fukaya, O. Shinkawa and A. Yajima* 21

Serum neuron-specific enolase as a marker useful for monitoring the effectiveness of therapy in patients with neuroblastoma —— as compared with urinary catecholamine metabolites. *K. Hashimoto, Y.-I. Gotoh and K. Tada* 25

Echocardiographic measurements of left ventricle in normal infants and children. *T. Akiba, M. Yoshikawa, S. Otaki, Y. Kobayashi, M. Nakasato, H. Suzuki and T. Sato* 31

The inhibitory effect of lysozyme on the glomerular basement membrane thickening in spontaneous diabetic mice (NSY mice). *M. Shibata, T. Kishi, B. Yasuda and T. Kuno* 39

Cellular analysis in bronchoalveolar lavage fluids in infiltrative and fibrotic stages of idiopathic pulmonary fibrosis. *Y. Shindoh, S. Shimura, M. Tomioka, T. Aikawa, H. Sasaki and T. Takishima* 47

Effects of dextran sulfate on stabilization of milk lipoprotein lipase and VLDL triglyceride hydrolysis in vitro. *N. Matsuoka, Y. Saito and S. Yoshida* 61

Urine neuron-specific enolase and its clinical implication in patients with neuroblastoma. *Y.-I. Gotoh, K. Hashimoto and K. Tada* 67

Age-related change in calcifications in the thoracic aorta: A study with computed tomography. *S. Takeda, H. Watanabe and T. Matsuzawa* 73

Pharmacological and histological evidence for adrenergic innervation of the myoid cells in the rat seminiferous tubule. *K. Miyake, M. Yamamoto and H. Mitsuya* 79

Human β-endorphin and β-lipotropin levels in maternal and fetal plasma and amniotic fluid. *N. Furuhashi, T. Takahashi, T. Fukaya, O. Shinkawa, T. Takahashi, M. Tanaka and H. Kohno* 89

Opsonic activity of plasma fibronectin for *Staphylococcus aureus* by human alveolar macrophages: Inefficacy of trypsin-sensitive staphylococcal fibronectin receptor. *K. Oishi, M. Yamamoto, T. Yoshida, M. Ide and K. Matsumoto* 95

Short Reports

The instantaneous impedance frequency curve of the ventricle with the regional ischemia. *Y. Koiwa, R. Hashiguchi, T. Ohyama, T. Takagi, J. Kikuchi and T. Takishima* 103

Sequential cerebral blood flow study by chrono-autoradiography. *M. Tobita, H. Nagasawa, K. Kogure, H. Sato, S. Yashioka and T. Matsuzawa* 105

Vol. 149, No. 2, June 1986

The beneficial effects of 40% and 100% O_2 inhalations on acutely-induced myocardial ischemia in dogs. *K. Ishikawa, K. Kanamasa, T. Yamakado and R. Katori* 107

Effect of chlormadinone acetate, a synthetic progesterone, on restoring impaired load compensation in chronic obstructive pulmonary disease. *H. Kimura, K. Tatsumi, T. Kuriyama, T. Sugita, S. Watanabe, Y. Nishibayashi and Y. Honda* 119

Vitamin A transport in plasma of diabetic patients. *Y. Wako, K. Suzuki, Y. Goto and S. Kimura* 133

Hyperchloremia in patients with chronic renal failure. *Y. Wakabayashi, H. Sakamoto, T. Mishina and F. Marumo* 145

Antibodies specific for methylated DNA elicited in rabbits recognize only a single strand region of DNA containing 7-methylguanine. *Y. Kawarada and E. Okuhara* 151

Immunohistochemical and electron microscopic demonstration of human papillomavirus in dysplasia of the uterine cervix. *T. Toki, N. Oikawa, T. Tase, S. Sato, Y. Wada, A. Yajima and H. Higashiiwai* 163

The changes in active and inactive renin induced by various maneuvers in hypertensive patients. *T. Goto, K. Abe, K. Tsunoda, M. Seino, M. Yasujima, Y. Imai, S. Chiba, M. Sato, T. Haruyama, K. Omata, K. Sato, J. Tajima, M. Tanno, K. Kudo and K. Yoshinaga* 169

Effects of carbohydrates on insulin release from the isolated islets. *M. Inoue, T. Sato and K. Yoshinaga* 183

Determination of safe interval of circulatory arrest from the cerebral metabolic aspect. *A. Iguchi, K. Haneda, S. Sato and T. Horiuchi* 191

Suicide mortality in Japan: Analysis of the unusual secular trends. *S. Araki and K. Murata* 205

Social life factors affecting stillbirth, and infant and adult-disease mortality. *S. Araki and K. Murata* 213

Social life factors affecting major malignant neoplasms in Japan. *S. Araki* 221

Short Report

Evaluation of N-isopropyl-[^{125}I]p-iodoamphetamine affinity sites in rat brain by autoradiography. *Y. Kondoh, M. Murakami, K. Takahashi, I. Itoh, S. Mizusawa, H. Nakamichi, H. Sasaki, K. Watanabe, K. Tagawa and K. Uemura* 229

Vol. 149, No. 3, July 1986

Ovarian membrane receptors for LH, FSH and prolactin during the menstrual cycle and in polycystic ovary syndrome. *H. Ota, M. Fukushima, J. Murata, A. Wakizaka and M. Maki* 231

Electrical measurement of chloride secretion in the perfused human jejunum: Effects of theophylline and prostaglandin E_1. *H. Masukawa, M. Kaneko, T. Takahashi, M. Ishikawa and Y. Suzuki* 241

Relationship between exposure and environmental concentrations in organic solvent workplaces. *H. Ukai, S. Takada, S. Inui and M. Ikeda* 251

Growth-enhancing effect of *Branhamella catarrhalis* culture filtrates on the L-forms of *Haemophilus influenzae*. *H. Shishido, A. Takahashi, K. Matsumoto, A. Sakai and M. Ishiguro* 261
Growth-enhancing effects of culture filtrates of sputum isolates on the L-forms of *Haemophilus influenzae*. *H. Shishido* 271
Effects of forskolin on contractility and cyclic AMP levels in rabbit detrusor muscle. *T. Morita, M.A. Wheeler, I. Miyagawa, S. Kondo and R.M. Weiss* 283
The relation of integrated EMG of the triceps brachii to force in rapid elbow extension. *F. Aoki, H. Nagasaki and R. Nakamura* 287
Branching architecture of canine pulmonary arteries: A quantitative cast study. *K. Koike, T. Ohnuki, K. Ohkuda, S. Nitta and T. Nakada* 293
Evaluation of effect of treatment for primary lesions of stage D_2 prostatic cancer by means of transrectal ultrasonotomography. *H. Ohe, H. Watanabe, M. Saitoh, J.E. Pontes and G. P. Murphy* 307
Effect of interleukin 1 on chemotaxis and chemiluminescence of human neutrophils. *T. Terui, T. Kato, R. Suzuki, K. Kumagai and H. Tagami* 317
A rat model for monitoring homograft rejection of the lung. *T. Kondo, F. Shionozaki, S. Fujimura, A. Yamauchi, M. Handa, T. Okabe, R. Saito, T. Ichinose, Y. Shiraishi and T. Nakada* 323
Immunohistochemical localization of carcinoembryonic antigen in carcinoma in pleomorphic adenoma of salivary gland: Use in the diagnosis of benign and malignant lesions. *H. Takahashi, N. Tsuda, F. Tezuka and H. Okabe* 329
Short Report
Rapid identification of *Klebsiella pneumoniae* in the lung tissue by fluorescence microscopy. *M. Senba, K. Irifune and M. Kaku* 341

Vol. 149, No. 4, August 1986

A enzymatic and fluorimetric determination of total bile acid sulfates in human urine. *H. Amakasu, H. Suzuki, T. Miyakawa, M. Ootsuki and Y. Goto* 343
Plasma levels of protein C and vitamin K-dependent coagulation factors in patients on long-term oral anticoagulant therapy. *H. Takahashi, M. Hanano, S. Hayashi, Y. Arai, N. Yoshino, E. Takakuwa, W. Tatewaki, R. Nagayama, S. Takizawa and A. Shibata* 351
Agammaglobulinemia in a pregnant woman. *N. Funakoshi, T. Ohno, T. Kanoh, H. Uchino, T. Miyake, T. Oda, K. Kiyoshige, T. Ishida and K. Kohriyama* 359
Socioeconomic risk factors for cerebrovascular, ischemic heart and hypertensive mortality in Japan. *S. Araki, K. Murata and K. Yokoyama* 367
Social risk factors for the mortality from motor vehicle accident. *S. Araki and K. Murata* 379
Characterization of functional beta-adrenoceptor subtypes in rabbit urinary bladder smooth muscle. *T. Morita, S. Kondo, S. Tsuchida and R.M. Weiss* 389
Cardiovascular response to rapid infusion of lactated Ringer's. *K. Haneda, E.A. Hessel II, R. Thomas and L.L. Huntsman* 397

Sex determination of the human skull based upon line drawing from roentgen cephalograms. *M. Funayama, Y. Aoki, T. Kudo and K. Sagisaka* 407
Spontaneous and MMC induced SCE in lymphocytes from patients with cervical cancer. *S. Sou, T. Takabayashi, N. Ozawa, K. Sho, K. Sasamoto, A. Yajima and M. Suzuki* 417
Morphological changes of platelets during the process of platelet aggregation in gray platelet syndrome. *K. Mori, S. Suzuki, K. Sugai, Y. Akutsu, M. Ishikawa and H. Sakai* 425
The effect of trypsin on the growth and infectivity of human rotavirus. *S. Kitaoka, H. Suzuki, Y. Numazaki, T. Konno and N. Ishida* 437
Short Reports
Existence of lipoprotein lipase in rat brain microvessels. *K. Shirai, Y. Saito, S. Yoshida and N. Matsuoka* 449
Stimulation of melanogenesis by cholecalciferol in cultured human melanocytes: A possible mechanism underlying pigmentation after ultraviolet irradiation. *Y. Tomita, M. Fukushima and H. Tagami* 451
